Secondary update

Dear Parents,

This week has been different for us in the secondary school, hence the shorter than normal update from me. We had students spend four days and three nights away on camp, build spacesuits after a day researching space travel, preparing their dragon's den style pitches on Enterprise day and finishing the week with a day learning about Empathy. Our Year 10 students had a day out at a local university and were visited by professionals from the world of sport and law. Please keep an eye out on social media for images and clips from all the wonderful activities and as I write, we still have students in Cambodia who we are looking forward to welcoming back into school on Monday morning.

Our Year 11 students have completed their mock exams and will be receiving the results over the coming week. For the rest of the school, we have our assessment window back in action and students will have a small number of assessments across this week and for the two weeks following the half term break.

This coming Friday (10th Feb) we have our Secondary Sports Day, which is always an action packed, competitive day and we are looking forward to watching the students in action. Parents are welcome to watch, and the PE team will be in touch with the schedule early in the week.

This week's coffee morning will be with our careers advisor Ms. Scouler and will take place on Thursday 9th February at 8.15am. If you would like to attend, then please fill in the form through the following link <https://forms.office.com/r/tFEXHhF7XF>.

Enjoy the weekend and I look forward to seeing you around school over the coming weeks.

Kind regards,

Jon Pennock
